

SUMMARY

Full-Stack Software Developer with 3+ years of experience building, optimizing, and maintaining scalable web applications, RESTful APIs, and modern frontend platforms. Proven expertise across the entire software development lifecycle, specializing in JavaScript ecosystems, React, Next.js, Node.js, and backend architecture.

Experienced in client-side state management, responsive UI/UX implementation, database design, and integrating secure API services. Skilled at collaborating with cross-functional teams, product managers, and UI/UX designers to translate requirements into robust production code.

Hands-on experience developing and deploying web applications, custom components, and form validation workflows using React Hook Form, RTK Query, Tailwind CSS, and Express. Deep knowledge of modern web practices, component lifecycle management, clean code principles, and version control workflows using Git and GitHub.

Passionate about building intuitive, performant, and reliable web applications while keeping pace with modern development trends and delivering high-value user experiences.

CORE SOFTWARE DEVELOPMENT SKILLS

FRONTEND DEVELOPMENT - React / Next.js Frameworks - JavaScript (ES6+) / TypeScript - HTML5 / CSS3 / Tailwind CSS - State Management (Redux Toolkit / RTK Query) - Client-Side Form Validation (React Hook Form) - Responsive & Mobile-First Web Design - Component Architecture & Reusability - Web Performance Optimization	BACKEND & API DEVELOPMENT - Node.js & Express.js Runtime - RESTful API Design & Integration - Relational & NoSQL Databases (MongoDB, SQL) - Server-Side Rendering (SSR) & Static Site Generation - API Authentication & Authorization - Database Schema Design & Optimization - Asynchronous Programming & Event Handling
DEVOPS, TOOLING & VERSION CONTROL - Git / GitHub Workflow Management - CI/CD Pipeline Basics & Deployment (Netlify, Vercel) - Environment Configuration & Secrets Management - Domain & DNS Routing Configuration - Package Managers (npm, yarn) - Build Tools (Vite)	TESTING, QUALITY & DESIGN TOOLS - Postman API Testing & Documentation - Code Review & ESLint Code Quality - Figma & Canva (UI Design Translation) - Troubleshooting & Debugging - Agile / Scrum Methodologies

PROGRAMMING LANGUAGES & RUNTIMES: JavaScript, Node.js, HTML, CSS, SQL, Python, Bash

EXPERIENCE

Petaverse — Website Full-Stack Developer

Remote | 2023 – Present

- **Scalable Web Application Development:** Build, maintain, and optimize responsive web applications using React.js, Next.js, and Tailwind CSS, delivering seamless client-facing interfaces across multiple industry platforms.
- **Backend Integration & Architecture:** Design and integrate RESTful API services powered by Node.js, Express.js, and MongoDB to manage dynamic content, secure user authentication, and data operations.
- **Reusable Component Engineering:** Architect reusable frontend component libraries and client-side state workflows (RTK Query, React Hook Form) to improve application maintainability and reduce development turnaround time.
- **Cross-Functional Collaboration:** Partner directly with UI/UX design teams and product stakeholders to translate Figma design prototypes into production-ready full-stack software code.
- **Deployment & Quality Control:** Manage end-to-end version control workflows using Git and GitHub while deploying and hosting scalable applications on Netlify.

Tizeti Network Limited — Software Developer

Nigeria | 2021 – 2023

- **Core Application Support:** Developed and refined internal operational dashboards and client-facing interfaces to support telecommunication and broadband network management operations.
- **API & System Performance:** Integrated RESTful microservices and optimized backend database queries, improving application load times and real-time data synchronization.
- **Debugging & Maintenance:** Diagnosed, debugged, and resolved runtime software faults across internal systems, maintaining high application uptime and reliability.

Freelance — Social Media Manager & Graphic Designer

2020 – Present

- **Digital Media & Brand Strategy:** Designed creative visual assets using Figma and Canva to enhance digital presence and brand identity for client initiatives.

PROJECTS & PRACTICAL EXPERIENCE

- **MyDialecta Platform (Dialecta Ltd.):** Developed and deployed full-stack web application features and responsive UI interfaces supporting real-time user interactions and educational workflows.
<https://mydialecta.com>
- **SheTalks Africa:** Engineered and maintained full-stack web features and client integration pipelines supporting community-driven organizational initiatives.
<https://shetalksafrica.org>
- **Lantern Africa Platform:** Built secure authentication flows, user authorization interfaces, and responsive web components for client onboarding.
<https://playlanternafrica.com/auth>
- **Homerun Platform (Homerun Ltd.):** Built custom, high-performance web components and responsive landing platforms integrated with dynamic frontend state management.
<https://usehomerun.com>
- **Sterling Oil Web Portal:** Contributed to web platform enhancements and UI interfaces for corporate digital assets.
<https://stoilmgt.com>
- **Portfolio & Open-Source Projects:** Engineered personal full-stack platforms demonstrating clean code architecture, API integration, and modern frontend deployment.
<https://nebula-creative.netlify.app>

DEVELOPMENT METHODOLOGIES & PRACTICAL STANDARDS

- **Frontend Standards:** Component-Driven Architecture, Responsive Web Design, Client-Side State Management (Redux Toolkit, RTK Query), Client-Side Validation (React Hook Form).
- **Backend Standards:** RESTful API Architecture, Database Schema Design, Server-Side Routing, Asynchronous Programming.
- **Development Workflows:** Version Control (Git/GitHub Feature Branching), CI/CD Deployment Pipelines (Netlify, Vercel), Agile/Scrum Development Practices.

EDUCATION AND CERTIFICATIONS

Petaverse Software Development Bootcamp	2023
Full-Stack Development Certification — Advanced JavaScript, React, Next.js, Node.js, and Distributed Git Workflows	
BeTechified Academy	2023
Product Management Certification	
Wesley Grammar Senior High School	2010 – 2013
Secondary Education Certificate	

ADDITIONAL STRENGTHS

- Strong analytical and full-stack problem-solving abilities.
- Effective cross-functional collaboration with UI/UX designers, backend engineers, and stakeholders.
- Detail-oriented approach to building performant, accessible, and user-centric web applications.
